

A symbol of grandeur and luxury living

Spread over an area of 3 million sq ft at Lokhandwala, Runwal Elegante is rewriting the rules of opulent lifestyles

etpanache@timesgroup.com

Realty player Runwal Group is driven by the pursuit of perfection and attention to detail. This vision is behind everything the group does. It has built a legacy that highlights excellence in super-luxury, luxury and middle-income group segments in the last 38 years.

The group's illustrious track record encompasses the entire spectrum, from premium and luxury residential homes, retail mall development to integrated townships, large commercial office spaces and bespoke solutions. More importantly, the group has delivered 65 landmark projects that have helped settle over 10,000 families, which speaks for itself.

With their desire to push the envelope of architec-

tural design and luxurious living, Runwal Group continues to develop properties that are the ideal fusion of form and function. Runwal Elegante at Lokhandwala in Andheri (W) is one such luxury property, displaying striking architectural expertise, thoughtfully designed with a glazed façade. The property has been designed for those who prefer the best. So, along with the infinity pool and luxury spa, it also has seven levels of parking with valet service and iPad-controlled electronics in each home.

On entering the air-conditioned lobby-cum-lounge, Italian marble finishing and false ceiling will present a sight to behold. Runwal Elegante will have breathtaking views of the Arabian Sea and the cityscape from the deck on the terrace, which

will also have a garden. The deck is over 400 feet high with a recreational area, meditation and yoga garden. Another first of its kind in this property is the concept of bespoke homes, where customers will have the option of having their home interiors designed by European designers.

The property has been designed for those who prefer the best

The project includes air-conditioned 2.5, 3, 3.5, 4, 4.5 and 5BHK apartments that exude opulence and grandeur. While in every apartment, the living room has an optimal floor to ceiling height, the master bedroom exudes elegance and luxury.

Similarly, the master bathroom will be designed on par with the best five-star hotels.

The fully-serviced building is poised to extend some world-class facilities that include valet parking, concierge service, housekeeping and a chef on demand. Besides, state-of-the-art security surveillance systems ensure top-notch safety of the premium property. In a bid to create a super-luxury property par excellence, technical expertise of the best in the world has been sought.

Despite being a luxury property, it scores high on the sustainability factor and has a significantly reduced impact on the environment. To own an apartment in a premium property like Runwal Elegante will be the ultimate status symbol.
